Experience

Cloud Consultant Intern, ProServe (Data & ML Specialty)

May 2025 – Aug 2025

Amazon Web Services (AWS)

- Delivered 80% faster safety-compliance answers via hybrid retrieval and cross-encoder reranking on a fully serverless stack.
- Built a document-intelligence system (OCR/NER/PII, summarization, RAG over NIOSH) with Textract, Comprehend, Bedrock/Agents.
- Validated resilience and cost with Monte Carlo sims on volume, Lambda duration, SQS latency, and error rates.
- Built analytics UI (React.js, Three.js); architected DynamoDB data lake with Athena querying (99.99% availability; 30% faster query times).
- Automated GDPR rights workflows, secure data export, WAF protections, and Cognito identity; defined infra with CloudFormation.

Cloud Consultant & Full-Stack Web Developer

Jan 2024 – May 2025

Green Pipe Analytics

- Developed responsive MERN applications and integrated analytics pipelines for ML initiatives.
- Engineered GraphQL and Apollo microservices, cutting avg query latency by 65 ms; standardized Tailwind CSS and DaisyUI components, increasing delivery speed by 15%.
- Deployed and managed hosting and DNS with 99.9% uptime; delivered Azure resource frameworks for multiple clients (-30% infra cost, -40% deploy time).

Director of Information Technology

Jun 2022 – Aug 2024

Stan Weaver & Company

- Directed IT integration during the Cors-Air to Stan Weaver merger; migrated 200+ users into a shared hybrid domain, unified Microsoft 365 email, and standardized DNS and group policies; boosted efficiency by 20%.
- Built two on-premises data centers and integrated Azure hybrid cloud; migrated RDS Farm to Azure with DUO authentication; improved uptime by 15%, reduced operational costs by 20%, and reduced infrastructure spending.
- Transformed ERP data into queryable datasets and built Power BI/ML pipelines; reduced query times by 60% and increased BI output by 40%.
- Deployed HubSpot CRM and help desk system with KPIs, CSAT surveys, knowledge base, and automated workflows; improved user satisfaction by 50%.
- Implemented ELK stack, phishing-awareness campaigns, Intune device management, and Azure AD RBAC; reduced downtime risks by 25%.
- Adopted ManageEngine as RMM platform to patch, monitor, and audit 150 workstations and 20+ servers across Florida; achieved patch compliance and full endpoint visibility.
- Migrated legacy Toshiba PBX to RingCentral cloud VoIP; reduced telephony costs and modernized communications across all locations.
- Led \$1M+ IT budget with up to 10 direct reports; drove modernization and mentored staff.

Network Engineer

Feb 2022 – Jun 2022

Infotect Design Solutions (CSP)

- Designed, installed, and maintained network infrastructure for nonprofit clients; ensured optimal performance and uptime.
- Deployed full network buildout for Boys & Girls Club: configured firewall, wireless APs, switching, and cabling for 50+ workstations; delivered secure connectivity on site.
- Implemented security solutions (firewalls, backup systems) to protect client data.

Network Administrator

Jan 2020 – Feb 2022

ITS Group (MSP)

- Resolved Tier 1 and Tier 2 help desk tickets for managed clients; tracked SLAs and billed client hours in TigerPaw PSA.
- Performed on-site deployments at schools and offices; staged and configured 100+ PCs, ran structured cabling and VoIP drops to server rooms.
- Managed VPN configurations and systems administration contracts across client environments.

- Supported Kaseya RMM deployment to monitor, patch, and audit 300+ servers and 1,300+ workstations across client environments.
- Deployed Proofpoint email security for clients; built and managed on-premises PBX and VoIP phone systems and Microsoft Exchange mail servers.

Software Quality Assurance

Oct 2018 – Oct 2019

Fairfax Imaging

- Designed and automated regression and functional test cases in C# with Ranorex Studio for a web-based OCR application; increased testing efficiency by 40%.
- Identified and resolved 100+ application issues using Ranorex Spy for object recognition; provided developers with reproducible test reports.

Aviation Machinist (Active Duty & Reserves) | DoD Security Clearance – Secret

Apr 2011 – Jun 2019

United States Navy & Navy Reserves

- Performed aircraft engine maintenance, fuel systems, and lubrication systems for 8 years; met deadlines and safety regulations.
- Performed helicopter and jet engine repairs, inspections, and performance evaluations; troubleshoot complex mechanical systems in high-pressure environments.

Education

B.S. Mathematics: Computational & Applied

Jan 2025 – May 2027 (Expected)

University of South Florida

- Major Concentration: Discrete Math & Cryptography

Undergraduate Certificate, Cryptography

Jan 2026 – May 2027 (Expected)

University of South Florida

Undergraduate Certificate, Business/Commerce

Jan 2026 – Aug 2026

University of South Florida

A.A. Computer Science

Aug 2015 – Aug 2017

Hillsborough Community College

Certifications

AWS: Machine Learning – Specialty · ML Engineer – Associate · Solutions Architect – Associate · AI Practitioner · Cloud Practitioner

Microsoft: Azure Fundamentals · Azure AI Fundamentals · Azure Data Fundamentals · Security, Compliance, and Identity Fundamentals

Google: Professional Cloud Architect (In Progress)

Other: Full Stack Web Development, The University of Texas at Austin · Machine Learning, Stanford University · ISC2 CC · CompTIA Network+

Organizations

Organizations: OWASP Member · ISC2 Member · USF Private Equity and Venture Capital Club (PE Vice President)

Skills & Technologies

Languages: C, C#, JavaScript, Python, Bash

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Three.js, GraphQL, Apollo, Tailwind CSS, DaisyUI, Mongoose, NumPy, SciPy, Pandas, Statsmodels, Matplotlib, Plotly, Scikit-learn, PyTorch, Transformers, Hugging Face, ONNX Runtime, Webpack

Databases: SQL, DynamoDB, Athena, OpenSearch, MariaDB, MySQL, PostgreSQL, MongoDB, Redis, S3, FAISS

Cloud & IaC: AWS (Textract, Comprehend, Bedrock, Bedrock Agents, SageMaker, Lambda, Step Functions, SQS, SNS, EventBridge, Cognito, DynamoDB, S3, Athena, OpenSearch, QuickSight, CloudWatch, CloudFormation, CDK), Azure, GCP, Terraform, Docker, Hyper-V, VirtualBox

ML & NLP: RAG, embeddings, vector stores (FAISS), rerankers, LLM integration, PII detection, summarization, fine-tuning, ONNX/TorchScript export, evaluation (BLEU, ROUGE, BERTScore)

Networking & Security: Cisco Catalyst, Cisco Meraki, Aruba, Sophos, SonicWALL, WatchGuard, VLANs, VPNs, IPSec, DHCP, DNS, TCP/IP, ELK Stack, Prometheus, Grafana, DUO, Proofpoint, Wireshark, Kaseya, ManageEngine, Active Directory, Entra ID, Intune, Veeam

Tools & Platforms: Git, GitHub Actions (CI/CD), Jira, HubSpot, Salesforce, Power BI, Microsoft 365, Google Workspace, FACTS, COPS, Ranorex, Postman, ESLint, Prettier
